

**THE GLOSTER CANARY
STANDARD OF EXCELLENCE AND SCALE OF POINTS**

CREST:

Neat regular unbroken round shape	15 points
Eye discernible with definite centre	5 points

CONSORT

Head broad and round at every point with good rise over centre of skull	15 points
Eyebrows heavy – showing brow	5 points

BODY

Back well filled and wings lying closely thereto. Chest nicely rounded without prominence	20 points
Tail closely folded and well carried	5 points

PLUMAGE

Close, firm and giving a clear-cut appearance of good quality and with a good natural colour	15 points
Carriage alert with quick, lively movement	10 points
Legs and feet of medium length without blemish	5 points

SIZE

For tendency to the diminutive –	
Not to exceed 121mm	15 points
Condition, health, cleanliness	10 points

NOTE: Body, size and condition count for 80 points. The total of 100 points being made up by the 20 allocated to the Crest or Consort as the case may be.

CREST: To be correctly carried upon the head, regular and unbroken, of round shape and even distribution from a definite centre. The eye should be clearly discernible. There should be no breaks or splits in its radiation from the centre.

TAIL: Must be in a straight line with the back. Narrow at the root and folded closely. The shorter and neater the tail the more in accord with this dainty little bird.

POSITION: Stands at an angle of 45 degrees.
